

Accessibility Statement

Lager 157 AB | www.lager157.com

Applicable legislation and standards: The Swedish Act (2023:254) on the Accessibility of Certain Products and Services (LPTT) | European Accessibility Act (Directive (EU) 2019/882) | EN 301 549 v3.2.1 | WCAG 2.1 Level AA | Supervisory Authority: The Swedish Post and Telecom Authority (PTS)

Lager 157 AB operates www.lager157.com and is committed to making the website accessible to as many people as possible. This accessibility statement describes how the website complies with accessibility requirements, identifies known accessibility issues, and explains how you can contact us.

How accessible is the website?

We are actively working to improve accessibility across both the technical platform and website content in collaboration with our platform provider. Most WCAG 2.1 Level A and Level AA success criteria have been met. A small number of remaining issues are currently being addressed.

Target: Full compliance with WCAG 2.1 Level AA by 31 December 2026.

Technical information

The website is partially compliant with WCAG 2.1 Level AA in accordance with the EN 301 549 standard, due to the accessibility issues described below. A technical accessibility assessment has been carried out in collaboration with our platform provider, with clear responsibilities defined by the platform's technical foundation and Lager 157's editorial content.

Accessibility Status by WCAG Criterion

The "Official Specification" column contains clickable links to the W3C's English WCAG specifications. The icon in the final column indicates the compliance status: ✓ = Compliant, ~ = Partially Compliant, X = Not Compliant, – = Not Applicable..

WCAG Criterion	Specification (EN)	Status	
Compliant WCAG Criteria (43)			
WCAG 1.3.1 (A)	Info and Relationships	Compliant	✓
WCAG 1.3.2 (A)	Meaningful Sequence	Compliant	✓

WCAG 4.1.2 (A)	Name, Role, Value	Compliant	✓
Partially Compliant – Improvements in Progress (5 Criteria)			
WCAG 1.1.1 (A) <i>Alternative text has been implemented for the majority of icons and images. Remaining work includes adding alternative text to the desktop search icon and completing alternative text for all remaining icons. ikoner.</i>	Non-text Content	Partially Compliant	~
WCAG 2.1.1 (A) <i>Core user journeys are fully operable using a keyboard. Remaining work: Optimising keyboard navigation past the “Select Store” list on product pages. While the list can be navigated using the Tab key, users currently need to tab through the entire list, which is not optimal.</i>	Keyboard	Partially Compliant	~
WCAG 2.4.7 (AA) <i>A visible focus indicator is provided in the standard theme. Remaining work: The purchase button requires additional styling to make the focus indicator more prominent.</i>	Focus Visible	Partially Compliant	~
WCAG 3.1.2 (AA) <i>English product names and terms such as “Club Deals” are considered acceptable exceptions. A grey area remains regarding the use of English colour names, which is currently under review and being addressed on an ongoing basis.</i>	Language of Parts	Partially Compliant	~
WCAG 3.3.2 (A) <i>Labels and programmatic associations have been implemented. Remaining work: An explanation of the asterisk (*) used to indicate required fields will be added to forms.</i>	Labels or Instructions	Partially Compliant	~

WCAG Criterion	Specification (EN)	Status	
Not Compliant – Planned Remediation (1 Criterion)			
WCAG 4.1.3 (AA) <i>Technical support for ARIA live regions is not currently available. Platform-level development is planned to address this issue.</i>	Status Messages	Not Compliant	X
Not Applicable (2 Criteria)			
WCAG 1.2.1–1.2.3 (A/AA)	Time-based Media	Not Applicable.	–
WCAG 1.4.13 (AA)	Content on Hover or Focus	Not Applicable.	–

Explanation:

✓ Compliant	The criterion is met
~ Partially Compliant	The criterion is partially met; specific remaining issues are described in the table
X Not Compliant	The criterion is not met; remediation is planned.
– Not Applicable.	The criterion does not apply to this service.

How We Tested the Website

A technical accessibility assessment was conducted in collaboration with Viskan System AB, covering all WCAG 2.1 Level A and Level AA success criteria. Ongoing manual reviews and automated testing tools are used to assess key user journeys, including the homepage, search, product pages, shopping cart, checkout, and login.
